C10.5 - The process & performance for cancelling applications was reviewed as a result of low numbers recorded in 2016/17. It was found that whilst annual reviews were taking place timeously the process of cancelling applications was not. This has been addressed and resulted in increased cancellation numbers in 2017/18. C19 Data for age of stock was extracted from a spreadsheet in previous years. In 2017/18 we created SDM dashboard reports for greater accuracy. The dashboard report for C19 indicated some differences from the data held on the spreadsheet in terms of year of build. This is the reason for the differences between 2016/17 and 2017/18.

C24.4 What percentage of your organisation's stock will be fully assessed in the next survey

15

C24.5 How did your organisation use the survey data stated at C24.2 to establish how the stock complied overall with the SHQS

Surveys provided by external surveyors in 2007 and 2012 were augmented by a further 15% consultant survey during 2014-15. These surveys identified where properties and components failed SHQS. These findings were then considered in conjunction with historical repair records, general condition awareness and Scottish Government Guidelines. As a result of this assessment process, appropriate remedial and renewal works were executed to ensure compliance by 31.03.15.

Comments (Access to housing and support)

Indicator 22& 23 (Adaptations): The Association fully expended its allocated budget part way through 2017-18. The Government advised that if the Association 'front funded' the outstanding adaptations that remained it could apply for the additional costs in its 2018-19 bid. The Association's Board of Management subsequently approved the front funding of the outstanding applications to ensure tenant's needs were met. The delays led to 728 additional days for 9 applications. Using the Board approval date as the approval (start) date for these applications, the ave days to complete adaptations would be 81 days compared to the submitted ARC figure of 112. The % of application completed remains at 85%.
